

4S VisiLog[®]

Optimize, Synchronize and Integrate your Supply Chain

4S Visilog is Four Soft's web based Supply Chain Execution (SCE) Engine built on modern J2EE platform. The completely integrated application helps to manage the logistics of demand fulfillment seamlessly across all geographies and transport modes, thereby reducing costs and cycle time while satisfying the need for on-time delivery. 4S Visilog is based on the Supply Chain Operations Reference (SCOR), the cross industry standard for supply chain management. 4S Visilog incorporates integrated order management, shipment planning and execution, warehouse and inventory management, freight settlement and finance functionality for end-to-end visibility, tracking and raising alerts.
