

# 4S eLog<sup>®</sup>

Web based, Warehouse Management System

4S eLog is Four Soft's web based Warehouse Management System capable of handling inventory handling operations across multiple warehouses for different customers. Built on modern J2EE platform with a native browser interface, 4S eLog is designed to support core operational and financial requirements of modern day global freight forwarding, transport, 3PL, 4PL and distribution companies. 4S eLog extends well beyond the capacity of a traditional warehouse management system by integrating supply, fulfillment and partner collaboration into one enterprise service platform.
